MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding is signed on the 7th day of June, 1999 between MICROSOFT CORPORATION INDIA PRIVATE LIMITED, with its registered office located at Paharpur Business Centre, 21 Nehru Place, New Delhi- 110019 and CENTRE FOR DEVELOPMENT OF IMAGING TECHNOLOGY, an autonomous research and training society sponsored by the Government of Kerala, having its office at the Chitranjali Studio Complex, Thiruvallam, Thiruvananthapuram- 27 (herein after referred to as "C-DIT") on the other part. The parties hereto agree the following :

Nature and Scope of the relationship

The objective of this relationship is that C-DIT and Microsoft will work jointly in the following areas

- C-DIT with its expertise in developing custom applications, and Microsoft, with its state of the art technology and products, will actively work towards leveraging mutual strengths for the benefit of Kerala Government and affiliate bodies.
- C-DIT will create a channel for penetration of IT literacy among the masses in the state by leveraging on the internet and the TV Media.
- C-DIT will roll out programmes that can effectively deploy computer education in schools in conjunction with the Department of Education in the state.
- C-DIT will manage programs to ensure adequate entrepreneurial opportunity for the skilled sector of the population.

Microsoft and C-DIT have mutually agreed to sign the Microsoft Solution Provider relationship and extend to C-DIT the status of a **Strategic Microsoft Technology Partner (SMTP)** in Government.

As a Strategic Microsoft Technology Partner, C-DIT will actively consult, develop, promote and execute systems integration projects on MS Technology.

Microsoft, in return will provide access to Training, Skills Transfer on MS Technology, and referrals/ exposure for C-DIT professionals to Government automation experiences outside Kerala.

To supplement C-DIT efforts in implementing mission critical applications across the state, Microsoft shall review and extend concessional pricing on Microsoft Products for deployment in the state of Kerala through C-DIT.

The Roles and Responsibilities of Microsoft and C-DIT are as per the enclosed Annexure.

The relationship of C-DIT with Microsoft shall not forbid C-DIT from entering into similar agreements with any other agency whatsoever deemed fit.

This non-binding MOU shall form the basis for the binding contract to be formalized between Microsoft & C-DIT within 45 days of signing this MOU . If the final binding contract as contemplated by this MOU is not executed within 180 days from the date hereof, then this MOU shall be of no further effect.

Signed by.....

(Mr. Rajiv Nair)
For Microsoft Corporation

(Mr. P. Govinda Pillai)
For C-DIT

4. Migration of Current Applications

C-DIT will explore possibilities of migrating current applications running on other platforms, to the Microsoft Windows NT & BackOffice platform. C-DIT will work with Microsoft to identify these projects by 01 January , 2000. Microsoft Consulting Services would be involved in these migration projects to provide the required skills transfer to C-DIT .

5. Web server

C-DIT will host a web site on the Windows NT/Internet Information server for Intranet & Internet. C-DIT will use Microsoft's Internet Explorer and the Active X as core technologies for browsing and web based development and will clearly label the site as "best viewed with Internet Explorer" and "Powered By BackOffice".

6. Microsoft Strategic Platform

C-DIT will promote Microsoft's Windows platform as its platform of choice. To demonstrate this, C-DIT will create referrals and showcase using the breadth of Microsoft Technology.

7. Microsoft Valuable Project Initiative:

The Microsoft Valuable Project Initiative (MVPI) for the engineering students in the State would be planned and executed jointly by C-DIT and Microsoft. This project is expected to provide the much needed manpower to carry out software development for Government automation projects.

C-DIT will be the co-ordinating agency for the MVPI Program for Students of Engineering and Master of Computer Applications courses in Kerala. C-DIT will make available its facilities and manpower to ensure successful execution of this program which will be finalised after joint discussions with Microsoft. This program would be launched by 01 January, 2000.

C-DIT shall assist user organisations to keep all usual and proper records relating to use of MS software. MS reserves the right to request C-DIT to conduct an internal audit at any time on or prior to the renewal of the agreement.

B. Responsibilities of Microsoft

1. Skills Transfer

Microsoft will train C-DIT consultants, on the following products and technologies.

Windows NT	Win 32 Programming
SQL Server	OLE
Visual Basic	Internet/Intranet
TCP/IP	

The training schedule will be spread over the next six months period with up to 100 hours of training. The facilities required for executing the training such as the class room, equipped with a PC for each participant, Servers with S/w installed, AV equipment shall be provided by C-DIT. Microsoft will offer the trainer and courseware required at no cost to C-DIT.

Annexure

Under this Strategic Microsoft Technology Partner Frame work, C-DIT and Mircosoft would undertake the following:-

A. Responsibilities of C-DIT

1. Core MS team

C-DIT will form a core team of up to twenty five professionals headed by a senior executive from C-DIT to give an internal thrust to Mircosoft NT, BackOffice and Internet Platforms. C-DIT will depoly adequate manpower resources to fulfill the requirements across the State of Kerala as appropriate. C-DIT will ensure that this core group consists of MS Certified Professionals. The Project Leaders and software professional for the various government automation projects where MS Technology is being deployed, will have to be drawn from this core group.

The Core team will be set-up in a phased manner and initiated before September 30, 1999, The Core team will specialize in the following areas:

- Operating Systems:- Windows NT Server, Windows NT Workstation, and Windows 95.
- Desktop Applications : MS Office/ Office Professional, MS Project
- Databases : SQL Server, MS Access
- Messaging & Systems management : MS Exchange and SMS
- Tools: Visual Studio, VB and VC++
- Microsoft's Internet Products

C-DIT will also form a group of professionals, drawn from the above pool, who would act as trainers for MS technology to end users in Kerala Government Departments.

C-DIT will incorporate Microsoft BackOffice and Tools as a basic part of their internal training services.

2. Centre of Excellence

C-DIT will set up a Microsoft Excellence Centre for benchmarking, and demonstrating interoperability with other platforms. This benchmarking centre should be operational by December 15th ,1999.

3. Plan of Action

C-DIT and Microsoft would jointly conclude on a plan within six weeks of signing of the MOU outlining the commercial opportunities and a joint plan for Microsoft BackOffice and Desktop products to be deployed in the State as part of the applications. The Objectives is to effectively deploy Microsoft BackOffice Servers on the PC servers installed and MS desktops applications on new PC's installed for office productivity.

2. Porting and Migration

Microsoft will provide reasonable assistance in providing consulting assistance on porting and or migrating the applications, identified jointly by C-DIT & Microsoft, to a Microsoft Platform. Microsoft Consulting Services will provide skills transfer to re-engineer the applications jointly identified. The total consulting hours for such effort not exceeding 100 hrs during the first year of signing this MOU.

3. Product Deliverables

For purposes of centre of Excellence, Demonstrations and Benchmarking and Microsoft Valuable Project Initiative, Microsoft will supply all MS products, with the required licenses supplied as a part of the Solution Provider Program.

Through the Solution Provider Program, Microsoft will provide C-DIT with all the solution provider deliverables, which include early availability of products and Beta versions of future products under the terms of the Beta program.

4. Training Deliverables

Microsoft will provide the original Microsoft Official curriculum free of cost for the training of up to twenty five C-DIT consultants. Microsoft will offer further courseware, if required at reasonable terms.

5. Microsoft Valuable Project Initiative

Microsoft will institute a recognition and award for those student application development projects which are selected for live implementation by C-DIT. Microsoft would be actively involved with C-DIT to launch this program in the Engineering Colleges in the state.

6. Business Partner Initiatives

Microsoft will organise technical briefing programs for key C-DIT consultants. For events with participation fees, Microsoft will waive the participation fees, for C-DIT attendees.

Microsoft will present the change in technology as an update once a quarter to C-DIT consultants.

7. Product Pricing

Microsoft will work out a special pricing for each of its product categories that will be deployed by C-DIT along with applications developed for the State. Microsoft products can be procured by C-DIT at the determined prices from any of the Microsoft distributors. C-DIT would extend these products or resell to their government customers only as part of the project deployment.

8. Beta Programs

Microsoft will make C-DIT a Beta Site for its upcoming technology and products. This would enable C-DIT engineers an opportunity to be at the leading edge of technology and plan solutions based on future MS Technology.
